Near Municipal Corporation Office, Gandhi Chowk, Chhotapara, RAIPUR (C.G.) Ph.:- 0771-

Best Practice

1. PROMOTION OF ENVIRONMENTAL CONSCIOUSNESS: -

Some good practices toward preserving a healthy environment are:

- The Solar Energy Plant at Mahant Laxminarayan Das College, installed in 2018, has tremendously reduced the usage of electricity from Chhattisgarh State Electricity Board. It bears at least 70 per cent of the energy demands in the college.
- Rain Water harvesting system installed in college campus. It is helpful in conserving rain water, with its help the ground water level can be balanced.
- There is an E-waste management system also in college.

2. Differentiated teaching to ensure teaching-based learning and assessment:

- No student is left behind by the relevant pedagogy updates. A well-defined session plan, course outline and pre-class reading, know your student, are made effective by micro-management.

3. Problems Encountered and Resources required-

- The students of the institution basically belong to rural and underdeveloped part of the State which is a major shortcoming and limitation. They are only focused on getting a government job rather than being an entrepreneur which requires arduous efforts on the part of IQAC to motivate them.
